DAVE
GARWACKE

www.davegarwacke.com
dave.garwacke@ifyoumakeit.com

A complete web developer,
I see design & programming as
inseparable elements. They
work together to create an
attractive, accessible platform
for your content.
I have extensive experience in
the multiple languages and the
creation of custom Content
Management Systems.

///////////////////////////////////////
PHP

WORK EXPERIENCE

ENGAGESCIENCES
Client Services Engineer
2014

Creation of custom Javascript web apps for clients that range from HTML5 Canvas painting apps to social walls that feature content from all networks w/ custom interactions.

3 RINGS MEDIA
Lead Technical Developer
2007-2013

Worked on a large range of sites, apps and electronic press kits in an agency setting. Created PHP-based inventory systems for cosmetic companies to keep track of stock and allow ordering.

FREELANCE DEVELOPER
2004-2007

Developed custom content management systems to handle releases, artists and sales for mid-level record labels. Created e-commerce solutions for print shops.

EDUCATION

State University of New York at New Paltz
Bachelor of Science, Spring 2010
Computer Engineering
Member of Eta Kappa Nu Honor Society

RELEVANT WORK

IF YOU MAKE IT
ifyoumakeit.com

Self-run music site that features a custom CMS combining PHP, MySQL, & JS elements. Template driven frontend for ease of maintenance and cleanliness of code.

PRIMARY COLORS
primarycolors.net

JSON/MySQL-driven map site that displays voting data on members of congress. Designed and implemented an easy-to-digest system to highligh Democrats that are performing below average. Complex mapping system is tied into Wordpress for easy hot-linking to relevant articles and information.

UFC WARPAINT
ufc.com/warpaint

Created a cross-browser HTML5 canvas-based contest in support of an upcoming fight. Users upload pictures from webcams or phones and use brushes to paint their country's colors on their body. Contest is tied into a CDN for instant submission and feedback.
